Product Spotlight: CertainTeed Levelline Flexible Corner Trim and Sticks

Producing neat corners quickly is one of the biggest challenges in drywall finishing. CertainTeed has a solution to guarantee crisp, clean inside and outside corners on every installation, using Levelline Flexible Corner Trim and Sticks.

Levelline Flex Corner Trim is a corner bead that offers the following benefits and features:

- Polymer core resists wrinkling and creasing
- Built-in flexible hinge adjusts to any outside or inside corner angle and holds its shape
- Cuts easily to any length
- Eliminates need for pre-cutting and creasing, saving time on installation
- Available in 100' rolls

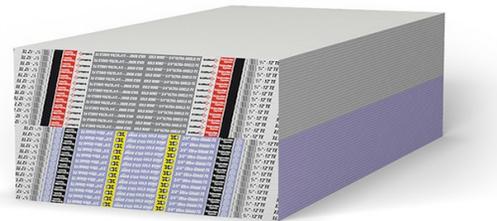

Levelline Outside 90 Corner Sticks are easy-to-install outside corners that deliver sharp, perfect corners in record time. Corner Sticks are manufactured in standard 8', 9', or 10' lengths for speedier installation.

[This video demo shows how easy it is to install Levelline Flexible Corner Trim and Sticks](#), and will give you an idea of the amount of installation time you can save with these products.

For more information about CertainTeed Levelline Flexible Corner Trim and Sticks, [contact one of the product specialists at Capitol Materials Coastal](#), or stop by your nearest yard.

Product Spotlight: Gold Bond 3/4" Ultra-Shield FS Gypsum Board

For construction of fire-rated wall partitions and cavity shaft wall assemblies, use of Gold Bond 3/4" Ultra-Shield FS Gypsum Board can reduce labor and material costs by reducing the number of layers needed to achieve the required fire resistance rating.

Gold Bond 3/4" Ultra-Shield FS has a specially formulated core with added fire-resistant properties and is UL certified for fire resistance. The material scores, snaps, and cuts easily, and installs more quickly than multiple layers of drywall. The material also offers reduced sound transmission versus a single layer of 5/8" gypsum board. Ultra-Shield FS XP offers all of these benefits, plus additional mold and moisture resistance.

Capitol Materials Coastal stocks both Gold Bond 3/4" Ultra-Shield FS and Ultra-Shield FS XP. Consult with one of our product specialists for help in determining which product best fits your needs.

[Learn more about Gold Bond Ultra-Shield FS and review fire-rated wall assembly illustrations here.](#)

Product Spotlight: Conquer Curves With Radius Track

With Radius Track, non-angular framing projects will no longer throw you a curve. Capital Materials Coastal carries the full line of Radius Track Ready Products, for quick framing of non-angular building elements.

Radius Track Ready Products are easy to hand-bend on site to fit any curved surface or element specified in your plan, without cutting, snipping, or other shaping methods.

Ready Products are fabricated from 20 gauge galvanized steel and are available in the following configurations:

- Ready-Hat, a flexible, low-profile (7/8") furring channel, available in 10' lengths
- Ready-Track, for framing curved walls with wood or steel studs, available in six widths from 2-1/2" - 6", in 8' or 10' lengths
- Ready-Angle, ideal for S-curves, spirals, or free-form shapes, 1-1/2" x 1-1/2", available in 8' or 10' lengths
- Ready-Arch, for arches, soffits, and eyebrow curves, available in four widths from 3-1/2" - 6", in 8' lengths

All of the Ready Products are flexible to a minimum radius of 10" - 20", and are compatible with concrete, steel frame, or wood frame construction. Ready Products are appropriate for most building projects, but for large-scale projects, Radius Track also offers Curved-Right Custom Framing, in up to 12" widths and over 35' lengths, in 22 - 14 gauge cold form steel.

To see how easy it is to conquer the curve, [watch this video demo](#), or stop by your closest Capital Materials Coastal yard to check out the full line of Radius Track Ready Products.

Product Spotlight: Ruco Wall and Ceiling Finishing Materials

No matter what level or type of wall and ceiling drywall finish is specified for your project, Ruco has a product to help you complete the job quickly with professional results.

Ruco's product line includes:

- Ruco Ready Mixed Joint Compound, in five different weights and formulations
- Sure-Sand powdered ready-to-mix joint compound, available in seven set-time formulations
- Ruco Equalizer, to minimize surface texture and porosity differences between wallboard and taped, floated joints
- Ruco Equalizer Plus, formulated to achieve a level 5 finish without the additional step of paint primer application
- Ruco Drywall Joint Tape, for banjo-style taping machines, automatic taping systems, and hand taping, available in 250' and 500' rolls
- Ruco Design Texture, for achieving orange peel, knockdown, stipple, and other textured finishes
- Ruco Styrene Ceiling Texture, formulated for spray application and available in four different aggregate sizes

Ruco's entire product line is available at [your local Capital Materials Coastal location](#). Our product experts can help you determine which Ruco finishing products are most appropriate for your job.

Regional News: Margaritaville Coming to Savannah Area

Hardeeville, SC and Minto Communities recently announced plans to develop a large community for residents 55 and over. The new development will be

known as Latitude Margaritaville Hilton Head.

The planned development of over 2,700 acres will be located on Highway 278 and will include 3,000 homes, a resort-style pool, a fitness center, a social hall, and indoor and outdoor dining. It will also include a 72-acre site for a 290,000-square-foot Margaritaville-inspired retail center, which will feature restaurants, specialty stores, grocery stores and entertainment venues.

In a news release, Hardeeville Mayor Harry Williams said, "Hardeeville will now become the place for retirees from around the country who want to enjoy the beauty and amenities of the region."

The development will be the second Latitude Margaritaville location. Minto Communities and Margaritaville Holdings broke ground on the first Latitude Margaritaville community in Daytona Beach, Florida earlier this year.

Latitude Margaritaville Hilton Head is scheduled to open in early 2018.
